

Free Dr Reiner Fuellmich

To the attention of the German authorities and the German judiciary

This letter is written on behalf of millions of people who are connected to Dr Reiner Fuellmich and have been for over 3 years. Many of these people have said that Dr Reiner saved their lives. Without his courage, presence, strength, smile, kindness, honesty, knowledge, calm, intelligence and so on, some people have even affirmed that they would have committed suicide. So many people were scared and alone during this time of extreme angst.

For millions of people, Dr Reiner Fuellmich is a hero.

For many of us, he has been a best friend, a saviour, a soul soother.

Since Germany illegally took Dr Fuellmich from Mexico and arrested him in Frankfurt, many of us are in turmoil.

Do you, German authorities and German judiciary, realize the harm you are causing people by keeping Dr Fuellmich, who has done nothing illegal (there is proof of this) locked up?

Reiner Fuellmich carried us through dark times.

Now we carry Reiner.

We all know Dr Reiner Fuellmich did nothing illegal. We believe you know too. The evidence, as we have been informed, is clear and obvious.

That is why we are watching you and protesting against the detainment of Dr Fuellmich, German authorities and judiciary.

We also know Dr Fuellmich was set up in Mexico, when he was supposed to pick up his passport but was instead detained by Mexican immigration officials.

We know that Germany paid for the round-trip airplane tickets of the 2 Mexican officials accompanying Reiner Fuellmich after his quasi-kidnapping.

The public prosecutor's office in Göttingen based Dr Fuellmich's arrest warrant on a criminal complaint filed by three Berlin lawyers, two of them members of the Corona committee. A prosecutor who read this complaint was surprised that an investigation had been initiated at all based on this document and the accusations formulated in it.

All the evidence indicates German authorities and judiciary are using Dr Reiner Fuellmich as an example to keep other people from speaking freely about the truth, as they did with judge Dettmar, who followed the law and has paid major consequences.

Free Dr Reiner Fuellmich on Bail.

The matter under question is a civil conflict between persons who created a private company. Therefor it has nothing to do with the criminal justice system.

At the very least, free Dr Fuellmich on bail. He is not a flight risk.

This is the least you can do to lessen the damage to Germany's reputation as a country with a fair legal system.

We will not rest until Dr Reiner Fuellmich, a courageous man, a hero to millions, is free.

Sincerely,
